

250+ Highly Engaging Course Topics People Will Pay For Repeatedly

These are 250 niches, (And yes, I'll add to this eventually) that I believe you could create a digital product in and basically never run out of customers for it.

Before you go into a niche, PLEASE belong in that niche if it's your first product. You need to navigate things and it's much more difficult to do that if you do not belong in that niche.

Great example would be Hormone Balance For WOMen Over 40... I clearly don't belong in that group, so I wouldn't make it even though I know it's a highly valuable niche.

Belong to the niche you are getting into so that you know how to write ads for that niche, once you've done this 1 or 2 times then you can start to get into niches you don't belong in using AI to write for your avatar.

Health & Wellness

1. Intermittent Fasting for Beginners: 16/8 Method Mastery
2. Sleep Optimization: The 7-Day Deep Sleep Reset
3. Anxiety Management Without Medication
