

How to Use This Document to Create a Digital Product in Less Than 60 Minutes

AI is one of the most powerful tools available for rapid product creation, but its effectiveness depends on how you use it. If you understand how to craft the right prompts and refine the responses, AI can generate high-quality content, structured offers, and persuasive sales copy in a fraction of the time it would take manually. When used correctly, AI allows you to focus on execution rather than ideation, turning an idea into a sellable digital product effortlessly. This document is designed to guide you through that process step by step.

Steps to Maximize AI for Digital Product Creation

1. **Use the Product Creation Prompt** – Start with the **Niche Selection Prompt** if you aren't sure what niche to go into or "Extraction Prompt" once you know you're niche to generate a transformational digital product. AI will help craft a product that solves a problem and provides immediate value to your audience.
2. **Generate an Offer Stack** – Once your product is defined, move to the **Offer Stack Tab** and use the provided prompts to create an irresistible offer. This will structure bonuses, guarantees, and additional incentives that increase perceived value and conversion rates.
3. **Write a High-Converting Sales Page** – With your product and offer stack complete, navigate to the **Fill in the Blank Sales Page Tab**. This will help AI generate a persuasive sales page customized to your product. You'll receive a structured page including a compelling headline, body copy, and calls to action.
4. **Build & Launch in Wealthery Connect** – (Video Showing This Is Here) Now that your product, offer stack, and sales page are ready, it's time to set everything up inside **Wealthery Connect**. This platform allows you to:
 - Create your membership or product portal
 - Set up your sales page
 - Upload your digital product
5. At this stage, most of the work is simply copying and pasting the AI-generated content into Wealthery Connect, making setup seamless and fast.

By following these steps, you'll have a fully developed digital product, a compelling offer, and a high-converting sales page—ready to launch in under 60 minutes.

AI is only as effective as the strategy behind it. Use this document to guide you, and watch how quickly you can bring your digital product to life!
