Extract Your 6-Figure Digital Product In The Next 60 Minutes Using This Revolutionary 4-Page "Extraction Prompt"... Even If You Have Zero Experience Selling Online

The Guy Who Created It Used It To Make \$6M in 18 Months Selling A 27 Page PDF... 🛼

SECTION 3: PROBLEM AGITATION

There are two types of people who want to create digital products: those who spend months perfecting their idea and get no where, and those who understand that speed and execution beat perfection every time. If you're reading this, I bet you already know which type gets ahead...

If you're like most aspiring solopreneurs, you're probably sick and tired of sitting on ideas that you know could make money — but not knowing how to turn that idea into a digital, scalable, high selling product.

Watching other people promote, scale and profit from simple digital products but having no way to tap into it for yourself..

Right now, you're probably:

- X Struggling to create a profitable digital product even though you know there are WAY less qualified people making millions
- X Watching others launch simple products and make 6-figures while you're still stuck figuring out where to start
- X Feeling overwhelmed by complex marketing funnels, product creation strategies, and endless Al noise
- X Worried that you're missing the golden window of opportunity with AI and digital product sales, just like we all missed out on the ecommerce boom

X Frustrated because every idea you have feels incomplete, or worse, not "good enough" to sell

And the worst part?

Every day that goes by, someone else is launching a product you could have created, while you sit on untapped potential.

SECTION 4: OPPORTUNITY WINDOW

"The good news is right now, we're living in the BIGGEST digital product opportunity window in history that is set to level the playing field for ANYONE Willing to tap into it..."

Here's why:

- Al has completely reshaped the landscape of product creation giving you the ability to simply extract high-value, transformative products in MINUTES thanks to the fact that AI already has all of the information you could need.
- Most people are still doing it the hard way spending weeks or even months brainstorming, outlining, and writing... when AI can do 90% of the heavy lifting. People are still making "courses" that take months to create while we can create digital products that get more transformation from our customers... in hours!
- Those who understand how to "prompt" Al correctly are able to create profitable **products in less than an hour** — and they're selling them in every niche imaginable. Selling them dozens or even hundreds of times EVERY SINGLE DAY thanks to the internet and our ability to reach people all over the world.
- This creates an unprecedented advantage for those who know how to extract Al's vast knowledge and turn it into high-value, sellable products.

But here's the key:

Al can do EVERYTHING... but it can't do it on its own... Al NEEDS YOU, and this opens up an incredible opportunity for average people to cash in on the digital education space.

Al has all the knowledge in the world, but it doesn't know how to package it into a product that sells — that's where YOU come in.

If you know how to **EXTRACT** it properly, Al becomes your most powerful business partner.

"AI is the goldmine. Prompting is the pickaxe."

And with the PaidCreators 7-Figure Product Extraction Prompt, you get the exact system that pulls out high-converting, transformative products — without needing expertise in any specific niche.

This means you can create products, just like this, in literally ANY industry:

- Parenting "15-Minute Bedtime Routines That Actually Work"
- Marriage "The 3-Step Conflict Resolution Formula"
- Yealth & Metabolism "Reset Your Metabolism in 7 Days"
- Side Hustles "How to Start an Etsy Shop in One Afternoon"
- Year Homeschooling "The 10-Week Homeschool Roadmap for Beginners"
- Phomesteading "Backyard Gardening for Families"
- **Fitness & Nutrition** "The 15-Minute Core Shred"
- **Quantification** Digital Marketing "10x Your Email List in 30 Days"
- Pating & Relationships "How to Get Better at Small Talk"
- Sleep Science "The Sleep Optimization Blueprint"

(I do always suggest that you choose a niche that you at least belong in. You won't see me making any products teaching people "what women want", cause I still have no idea)

Fun fact: Here's something nobody tells you about digital products: The most successful creators often spend less time creating than everyone else. In fact, I've found that the longer someone spends creating their product, the less likely it is to succeed.

You name the niche — AI has the information.

You just need the right prompt to extract it and turn it into a product that sells.

And the window is wide open right now for basically ANYONE to jump in and start a digital product selling business in just days!

The market for **digital education** is set to surpass **\$350 billion by 2025** (Global Market Insights) — and AI is **amplifying that growth exponentially**.

But here's the thing...

This is the **Wild West phase** of Al in business.

The early adopters are cashing in — while most people are still trying to figure it out.

If you get in now, you're ahead of 90% of people who haven't even started. But this window won't stay open forever.

Section 5: Future Pacing

Picture Your Life 30 Days From Now...

You wake up to the familiar *ping* of your phone - but this time, it's different. Instead of another work email or social media notification, it's a Payment Processing alert:

"You've received \$27.00 USD"...

And it's not just one. There are eight more just like it from while you were sleeping.

This isn't a dream. This is what happens when you have a proven, transformative digital product that sells itself. While you're having breakfast with your family, someone in Australia is buying your product. While you're going about your day, someone in London is implementing your transformation framework and getting results.

Imagine:

- Opening your laptop at your favorite coffee shop to find 5 new sales came in overnight
- Finally having the confidence to call yourself an "entrepreneur" because you have a real, profitable digital product that's helping people
- Never again watching others succeed with "simple" products while you sit on the sidelines
- Being the person others look at and say "How did they create that so fast?"
- Having the freedom to work from anywhere because your digital product business runs on autopilot

In just 60 minutes from now, you could have your very own high-converting digital product ready to sell. By this time tomorrow, you could have your first sale. And 30 days from now? You could be running a thriving digital product business that generates consistent income while you do what you enjoy doing most (and not making content 24/7 or sitting at your laptop all the time).

This isn't just about making money - it's about finally breaking free from the "someday" trap and joining the digital product revolution happening right now.

The only question is: Will you be one of the smart ones who takes action now, or will you be looking back 6 months from now wishing you had started today?

(Old Way Vs. New Way Graphic - Maybe it could look like a Maze on the Old Way, and New Way Is A Straight Line)

♦ The OLD Way (Why Most People Stay Stuck)

- Wait until crisis hits before deciding to take control.
- Search for the cheapest course—hoping this time will be different.
- **Jump from strategy to strategy,** losing weeks (or months) chasing momentum.
- Try random side hustles friends swear by... but secretly hate.
- Earn pennies doing soul-draining tasks (hello, \$8 gigs).
- Waste time on endless courses, still feeling stuck and overwhelmed.
- End up with NO real business, just more stress and zero freedom.

The NEW Way (Fast-Track to Real Results)

- Use my Extraction Prompt to unlock your most profitable idea in minutes.
- Build a BULLETPROOF digital product—in just 1 hour.
- Launch it today and start marketing immediately.
- Make real sales and finally feel what it's like to win online.
- Live life on YOUR terms— with freedom, flexibility, and control.

Y SECTION 6: STORY/CREDIBILITY (REWORKED)

From: Travis Stephenson Location: Tampa, FL

If you're reading this, chances are you're **sitting on a 6- or 7-figure idea** — but have no idea how to turn it into a sellable product... heck you likely don't even know what the product is that would take you there, we're going to change that.

I get it. Because I've been there.

In **August of 2022**, I sold my previous software company and found myself sitting at my computer saying... "Now what"...

No product
No audience

No social media following
A completely blank canvas

It was a "start from zero" moment. And honestly, it was overwhelming. Everyone assumed that because I had created stuff before I would know what to create now... and that was not my experience.

But instead of rushing into something new, I did something that most people won't:

I spent four months analyzing what the best marketers were doing — studying how they:

- Packaged their digital products
- Positioned them to sell (without big followings)
- Turned simple ideas into multi-million-dollar ecosystems

I dissected **what actually worked** — not the fluff, not the hype — the real strategies that were making people millions.

And here's what I found:

The best products weren't always the most complex. In fact, it's the exact opposite. The more simple the product, the better it would sell.

They weren't always created by people that you would consider "experts" in their field. These aren't PHD's making digital products, they are people just like you and me.

The best sellers were selling TRANSFORMATION and not INFORMATION. That was a big discovery for me because I realized it's significantly easier to sell and create transformation than it is information.

So I applied what I learned and created a simple **27-page PDF** — nothing fancy, just pure value packaged the right way with the intention of helping someone who's a "Zero" (on a scale of 1->10) become a "Two".

If I could do that, my product would be well worth the money being spend and I SHOULD get a lot of buyers from it.

At the time, I used a very basic AI prompt to help me organize my ideas.

With a lot of hesitation, I launched it. (Initially I used Facebook Ads, but we'll talk about that)

And what happened next blew my mind...

In just 18 months:

- ★ I generated over \$6,000,000 in sales
- Built 3 recurring revenue products, each doing 6-figures annually
- ₩ Had a single day of \$200,000 and a month of \$570,000

All from that 27-page PDF.

But here's the best part — I did it all while:

- Traveling across 4 continents and 8 countries for 18 months
- With my wife and two kids by my side
- Morking an average of 3 hours a day

Not a single viral or high performing social post.

Not a single dance video trying to play to the algorithms.

No burning out trying to "do it all."

That's when it hit me:

💡 "This wasn't a one-time fluke — this was a repeatable system."

I realized I had accidentally created a 7-figure digital product creation machine.

But there was still one problem...

I knew how to do it — but I didn't know how to GIVE that process to others. At the time I thought "Maybe I'm special and other people couldn't do this"

This is where we turn back to Al...

As I was building these products I was constantly using AI to help me get ideas, format products, and do research for me to create these "transformational products"...

After 8 months I had an AI prompting system that created highly sellable and transformative products in less than an hour.

I took my entire product creation framework and compressed it into a single 4-page prompt that could:

- Help anyone pick a niche that has a high likelihood of not just leading to a high selling product but also be incredibly fulfilling.
- EXTRACT high-value product ideas from the deep knowledge AI has, in minutes...
- Build out the structure, the transformation, and the core content...
- Work in any niche, no matter your experience...

And it did all of that in under 60 minutes.

The 7-Figure Product Extraction Prompt was born.

Now, anyone — even with zero audience, zero product ideas, or zero tech skills — could create high-converting, transformative digital products... in less than an hour.

The \$10K Club Wall of Fame

I decided to do something special to celebrate our community's success. We created the "\$10K Club" - an award for everyone in our community who crossed the \$10,000 mark with their digital business through what they've learned from my programs.

What happened next blew me away...

Dozens of success stories started pouring in. Thousands of screen shots and so after a few hundred were sent out I decided that you could only get your award if you submitted a video.

These aren't just numbers on a screen - these are real people who took action, applied what they learned, and transformed their lives through building one of multiple different online businesses we've taught.

Here are just some of the incredible stories that came in:

[VIDEO WALL EMBED]

<div style="text-align: center; margin: 0 auto; width: 100%; min-width: 200px;"><div style="position: relative; width: 100%; overflow: hidden; background-color: transparent;"><iframe allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture" allowfullscreen="allowfullscreen" allowtransparency="true" width="100%" frameborder="0" name="vocalvideo_2347" scrolling="no" sandbox="allow-same-origin allow-scripts allow-popups allow-forms" src="https://vocalvideo.com/embed/v1/galleries/2347" title="Vocal Video"</p>

Note: These videos were submitted by members of our broader digital business community. We run two major training programs, Wealthery (our software company) and PaidCreators. While they used different versions of our systems and training, they represent the potential of what's possible when you take action with the right guidance. Your results may vary, but we believe in celebrating everyone's success journey. We look forward to welcoming you to this wall!

What you'll notice in these stories isn't just the income - it's the transformation. From side-hustlers to full-time creators. From dreamers to doers. From "someday" to "today."

And now, with our new Al-powered system, achieving results like these is more accessible than ever... In fact, I already had our designer make our \$50,000 and \$100,000 award in anticipation of what people will do with this prompt and the training that comes with it. (FIND SOME WAY TO SHOWCASE THESE TOGETHER)

SECTION 7: PROOF SECTION (REWORKED)

Selling digital products is what I DO.

I've spent 15 years building online businesses — I've sold everything you can think of:

- Courses
- Ebooks
- Memberships
- High-ticket coaching

But nothing I've done has:

- Made me as much money
- Produced as many happy customers
- Or given me the freedom I wanted

...as this specific digital product model.

I knew what I had was the "Golden Ticket" for anyone looking to create high selling digital products because it would not only create the product... but it would format it in a way that creates lasting transformation for those going through it.

I knew what I had was special so I reached out to a private group of coaching clients and decided to host a special, one time only training, where I created a digital product in a niche I am NOT an expert in and don't have any audience in.

The goal was to start from absolute scratch, use my Extraction prompt, and build a digital product in as little time as I could.

This happened on a Sunday and I started my prompt at 10:30am EST... I worked on this for 2 hours before stopping to make my kids lunch.

I came back to my computer about an hour later and put in another 2 hours of work.

We're 4 hours in... and then I realize

"I have a FULLY built, ready to sell product in the Parenting niche".

- 💰 I had built a highly converting sales page based on my best selling template
- **&**I had made a 4 minute sales video using AI that explained the product and why people should buy

4 hours... start to finish... on a lazy Sunday. Proving my system not only worked but it worked better now than it ever had for me.

Imagine	being able	e to create	a business	s in an afternoon!?	
iiilagiiic	being abic	, to orcate	a business	in an alternoon:	

And here's the crazy part...

I had **NO audience** in this niche and was able to create REAL testimonials for the product within 24 hours of creating it...

I created my first sale for this product within 48 hours by (admittedly this is somewhat lucky) posting about it on Facebook and got 2 people who wanted to promote it for me I had **NO social media presence in this niche** but I was able to create 90 days worth of

Faceless content for the product in less than an hour

I didn't spend a single minute filming training videos or trying to build some complicated "course"

I just created the right product, packaged it the right way, and let the system do the heavy lifting.

Normally I would tell you that this is likely not something that just "Anyone" could do because it used to be complicated to create a product that people salivated over buying online... but that's just not true anymore... Now it's easy enough for literally anyone to tap into with our 7 figure Extraction Prompt.

The shortcut I wish I had when I started. But I'm giving you WAY more than just an Extraction Prompt... We're going to ensure you get your transformational product AND start selling it in hours instead of weeks.

IMPORTANT: DO NOT CLOSE THIS WINDOW

Your order is processing, but first watch this important message about accelerating your success...

Congratulations On Taking The First Step!

You've just joined an elite group of action-takers who are serious about building a profitable digital product business. But before you access your purchase, I need to share something CRUCIAL...

You've Just Joined The Top 1% Of Digital Product Creators

Most people never take action on their dreams of creating digital products. But you're different. You've already proven that.

What if I told you that the system you just purchased is only the beginning? I've generated over \$1.4M from just ONE of the strategies I'm about to share with you so if you like making the most amount you can from a project... pay close attention.

I'm about to do something risky...

I'm going to give you my ENTIRE product creation and launch system. Not just the information, which you now have, but once you have a product that can sell like wildfire it's time to start getting sales and I want to make that easy for you.

Most people would tell you to just "post and pray" and hope the algorithms favor you.

That ain't my style... I don't do organic.

Organic is great, but it's slow... and if we're being honest, not everyone has a "face for social" and maybe I'm one of them.

I've never been able to get organic traffic, with my face on it, to work for me... my Instagram is basically a desert, my Youtube gets less than 50 views, I don't use TikTok, and I suck at short form content apparently.

But thankfully... there is a BETTER way to get sales and you can tap into it IMMEDIATELY.

Instead of building a product and having to go door to door to sell it, why not just tap into the internet and start selling dozens of customers a day within days!

I HATE seeing solopreneurs struggling to figure out content angles, film videos, learn to edit, and become an absolute SLAVE to social media just to see the inly people that engage with their content are their "friends" from high school that they don't really like.

Being an influencer is more than a full time job! We don't want that... we want a business!

That's why I specialize in tapping into two different traffic streams that will deliver sales for you via automation and give you your time back!

(Graphic showing two mystery traffic sources driving leads to a product)

We are going to throw away the complication of having to "get lucky" on social media and tap into two proven methods for generating sales.

Paid Advertising is the first...

Paid ads are the key to happiness in my opinion. Yes you are spending money, but to grow you either have to spend TIME or MONEY. Time making content that likely goes nowhere... or even if it does it becomes a full time job...

Or Money... you make a piece of content ONE TIME (we call it an ad) and you put money behind showing it to people for the next 3-12 months.

Every day you spend \$XXX of money, and with the system we are going to give you, in an ideal world you are making \$XXX+ back.

You literally check in on your ads, see if they are performing or not... spend 20 minutes making changes... and you go about your day.

I averaged spending \$100,000 PER MONTH (Yes, \$3,000 per day) for my product and you can see what I got in return

(Show screen shots of watch)

This was almost ALL Thanks to just three things...

- 1. Constant flow of buyers from simple paid advertising that I was creating and managing myself while traveling across the world with two kids...
- 2. A Bulletproof funneling system that would give people what they want while also getting them to buy more from me.
- 3. A Referral System that turned my customers into mini sales machines that brought in new customers through simple referrals.

That's the second traffic source that SMART marketers tap into...

Simply turning your customers into a referral network.

The BEST marketing you will ever get is from your happy customers and something like 95% of digital product creators have NO IDEA where to start.

- How to incentivize your current customers to promote for you
- How to leverage their success to create multiple chains of new sales.
- How to build a referral platform that will get hundreds of people promoting your product

If you can tap into both of these... Paid ads will get you generating sales and then every customer you acquire will turn into a mini sales channel for you as they spread the good word about the results they get from your product.

Doing this is the holy grail of digital marketing.

I did this (admittedly it was somewhat by accident) with my product in 2023 and that resulted in \$1.4M in sales, putting \$750,000 in my pocket and allowed me to live like this:

(Montage photos of traveling) (Maybe montage video)

I worked, on AVERAGE, 3 hours a day is my guess... some days I didn't work at all... some days I checked in on some administrative things... some days I'd work in the morning after helping my kids get their day started.

You CANNOT have freedom in your business if you are relying on organic traffic which is why I want to give you the Fast Pass to tapping into the Freedom Building Traffic sources you need to build lifestyle into your digital product business.

Let me be clear... being able to profitably run paid ads to your products is the holy grail of digital business. You can turn up, or down your success and that is something words can't accurately describe.
