Copy and Paste THIS EXACT PROMPT to start building your digital product.

I want your help creating a low-ticket digital product ($17-$47) using the "15-Minute Transformation" model, where buyers get an easy, high-impact result in 15 minutes or less. The product should feel like a no-brainer purchase and be structured using the 6-Pillar Framework, with each pillar representing a key area of transformation that supports the main promise. The goal is for customers to: See real results fast. Feel like this is a valuable and complete solution. Have a seamless, simple experience with workable tools (checklists, templates, scripts, etc.). ✅ STEP 1: PICKING THE BEST PRODUCT IDEA & TRANSFORMATION Before suggesting ideas, ASK ME: What niche or industry would you like this product to be in? (If I'm unsure, offer a list of popular, high-demand niches like Health, Business, Productivity, Parenting, Hobbies, Relationships, AI, etc.) Do you have any specific skills, interests, or demographics that could influence the product? (E.g., Parent, Entrepreneur, Faith-Based, Pet Owner, Sports Lover, etc.) What type of transformation do you want your buyer to experience? (E.g., Save time, improve health, increase income, reduce stress, strengthen relationships, etc.) Once I respond: Analyze potential product ideas based on market demand and my responses. Suggest 3-5 product ideas that: Solve a common, urgent problem. Deliver a tangible result in 15 minutes (or quickly initiate the process). Feel easy to implement without complex training or deep learning curves. Can be structured into a 6-Pillar Framework. ✅ STEP 2: BUILDING THE 6-PILLAR PRODUCT FRAMEWORK Once the product idea is selected, structure it using the 6-Pillar Framework. Each pillar should represent a core area of transformation that builds toward the promised result. For each pillar, provide: A Clear Summary: What this pillar focuses on and why it's critical to the overall transformation. The Core 15-Minute Fix: A simple, high-impact action that the user can complete quickly. The Science or Reasoning Behind It: Why this method works (psychology, research, case studies, etc.). Step-by-Step Implementation Guide: A breakdown of exactly how to apply the fix. Workable Elements: Printable checklists, templates, scripts, or frameworks that simplify implementation. Plug-and-play resources to reduce friction for the user. Real-Life Examples or Stories: To illustrate how this method works in action and make it relatable. 💡 APPLY THE PERC METHOD TO EACH PILLAR: Ensure each pillar follows the PERC Method to maximize effectiveness: P → Plan: Lay out a simple plan or roadmap for the user to follow. E → Eliminate: Identify and remove obstacles, bottlenecks, or bad habits. R → Replace: Offer smarter strategies, tools, or methods that are easy to adopt. C → Create: Guide the user to create or implement something that drives the transformation. Every pillar should help the user move closer to the core transformation using this cycle. ✅ STEP 3: CREATING AN UPSELL OR MEMBERSHIP OPPORTUNITY Once the 6-Pillar Framework is complete, suggest additional ways to increase revenue and boost customer lifetime value: A No-Brainer Upsell ($47-$97): Should make implementation easier, faster, or more done-for-you. Examples: Pre-built templates, automation tools, advanced strategies, or plug-and-play guides. A Recurring Membership Option ($17-$27/month): Ongoing quick-win transformations within the same niche. Could include monthly mini-courses, templates, or live Q&A sessions. Focus on low-maintenance, high-value content to retain subscribers. ✅ FINAL OUTPUT EXPECTATIONS: By the end, I want a fully structured digital product that includes: ✅ A clear

15-minute transformation that solves a real problem. ✅ A comprehensive 6-Pillar Framework that feels valuable and results-driven. ✅ Step-by-step implementation guides for each pillar. ✅ Printable scripts, checklists, templates, or frameworks for easy success. ✅ A compelling upsell and membership opportunity that increases revenue. 🎯 EXAMPLE PRODUCT IDEAS I LIKE (IF APPLICABLE): (If I have any examples, I will share them here, but if not, provide ideas that follow this model.) Example 1: "The 15-Minute Perfect Kid Fix" — Simple, high-impact solutions with printable tools. Example 2: "The 15-Minute Morning Reset" — Small habit changes that create big shifts fast. Example 3: "The 15-Minute Funnel Fix" — Instantly improve funnel conversions using fast tweaks. 💥 Start by responding with: The full niche & sub-niche list. A demographic selector so I can tell you more about myself. Then, guide me through building a high-value, results-driven product that people will love to buy. 🚀
